REMOVING THE CHRIST CANDLE

Light has always been a symbol of God's presence with His people. As the Christ Candle is removed from the Sanctuary, we recall how the presence of Jesus was removed from His disciples, but only for a time. Easter morning, the candle will return, just as Jesus rose from the dead, lives and reigns to all eternity. This is most certainly true!

THE STREPITUS

The loud noise, or "strepitus," signifies the end of our service of darkness. Jesus is shut in a tomb. The Word of God has been fulfilled. The sacrifice is complete. Yet in the darkness, there is a promise of hope...
